Chennai, India | yajnesh.work@gmail.com | +91 8939756107 | <https://linkedin.com/in/yajneshk04>
<https://github.com/yajneshx94>

Technical Expertise

Languages	Java, SQL, Python
Frameworks	Spring Boot, Spring Security, Spring Data JPA
Databases	MySQL, PostgreSQL
Tools & OS	Git, GitHub, Docker, IntelliJ, VS Code & Linux
Concepts	REST API Design, JWT Authentication, Multi-tenancy

Projects

LADS – Log Anomaly Detection System | Dec 2025 [github.link](#)

- Built an AIOps pipeline using Java Spring Boot for log ingestion and REST integration, and Python scikit-learn for unsupervised anomaly detection using Isolation Forest.
- Collected 56,400 training samples by scraping a Podinfo CNCF microservice's Prometheus endpoint every 3 seconds over 48 hours via Docker.
- Validated the model against stress and failure scenarios - achieving 95.2% accuracy and 0.847 F1 score.

LinkNest – Link Management Platform | Jul 2025 [github.link](#)

- Built a Spring Boot backend with JWT-based stateless authentication and route protection using Spring Security; user data stored in PostgreSQL via JPA/Hibernate.
- Implemented user-scoped link management where each user's links are isolated and accessible only via their authenticated JWT token.
- Containerized the backend with Docker and connected a React frontend for end-to-end API consumption.

WikiFetcher – Wikipedia Search Service | Mar 2025 [github.link](#)

- Developed a backend search service using Java and Spring Boot to fetch and serve concise Wikipedia summaries through REST APIs.
- Implemented fuzzy matching logic to process user queries and integrated the backend controllers with a frontend UI for a seamless search experience.

Voice-Assisted Content Processing Service | Nov 2024 [github.link](#)

- Developed an AI content generation tool using Python, PyTorch, and Transformers to automate the creation of blog introductions and social media captions.
- Integrated a voice interface for input and a Wikipedia API connection to enrich generated text with fact-checked, context-aware information.

Education

Bachelor of Engineering in Computer Science | 7.78/10 CGPA Sept 2022 – April 2026
Misrimal Navajee Munoth Jain Engineering College | Anna University, Chennai

- Coursework:** Data Structures and Algorithms, Database Management Systems, Computer Networks.

Higher Secondary Certificate (HSC) Aug 2021 – May 2022
LIFCO Matriculation School, Chennai

Certifications

- Spring REST, Spring Data JPA with Boot** Infosys Springboard, 2025
- Spring 5 Basics with Spring Boot** Infosys Springboard, 2025

Achievements

- Secured 2nd place in Paper Presentation at Saveetha Engineering College Symposium
- Solved 100+ DSA problems on LeetCode and GeeksforGeeks
